

PROTECT ALL PARTS OF THE MICROSOFT OFFICE 365 SUITE WITH FULLY MANAGED BACKUP, RECOVERY, ARCHIVING, SEARCH AND DISCOVERY

Our fully managed enterprise backup service eliminates the risk of losing access and control over your Microsoft Office 365 data including SharePoint Online, OneDrive for Business, Microsoft Teams and Exchange Online. Helping customers to store backup copies outside of the Office 365 environment enables secure, quick and easy recovery from deletion, corruption or ransomware.

Organisations must take action to protect themselves and manage their data risk while simplifying and accelerating how they restore their data when something goes wrong. Customers need a comprehensive backup, archive, and compliance solution that is purpose-built to remove the complexity from backing up Office 365.

“IT leaders using and evaluating MS Office 365 should consider investing in third-party backup and recovery tools for faster and more-flexible recovery options, as well as reputation damage control after a malicious attack.” – Gartner

KEY BENEFITS

Comprehensive Data Protection

All your assets in Office 365 and on Windows 10, plus all other data on-premises and in the cloud, are protected and fully recoverable with industry-leading backup and recovery.

Reduced Migration Costs

Archiving inactive or legacy user mailboxes reduces the amount of data being moved to Office 365, resulting in decreased project costs.

Faster Office 365 Migration

Archive redundant, outdated and trivial on-premises data, shortening the migration cycle by ensuring you move only your business-critical data to the cloud.

Simplified Administration

Efficiently and seamlessly manage your on-premises and Office 365 deployments from a single, integrated console.

FEATURES AND CAPABILITIES

Fully auditable reporting on user operation	✓
Flexible retentions for all data sets	✓
Self-service portal	✓
Backup/Recover to alternative Azure/other cloud targets	✓
Granular recovery of Exchange items, SharePoint documents and One Drive folders and files	✓
24x7x365 Support	✓
